Universal Receiver

AirPlay, Google Cast, Miracast, and a commercial-grade Guest Hotspot seamlessly integrated into a single universal receiver—an industry first.

Cast Enabled

Stream your favourite online content, including Disney+, National Geographic, and Amazon Prime, directly to the big screen via Google Cast.

Future-proof Design

A single supplied USB-C cable powers the device while providing display, networking, touch, and camera support. The removable magnetic mount ensures effortless installation.

AirPlay 2

Stream audio with enhanced buffering to multiple Connect 3 devices at once, enabling synchronised playback across different rooms.

Unmatched Performance

Support for up to 12 simultaneous 1080p on-screen sessions at 60 FPS, with zero jitter—beyond that, unlimited sessions are supported.

Enhanced Connectivity

2.5G Ethernet and commercial-grade Wi-Fi 6E with dual-band simultaneous support deliver robust and reliable connectivity.

Security and Privacy

Ensure network security with 802.1x enterprise-grade protection, flexible integration, and automatic updates. All sessions remain local and are not transmitted over the internet.
